**BRING
NEW LIFE
TO YOUR
HOME**

**AN IKEA ARMCHAIR FROM 1951.
RENEWED WITH A CUSHION FROM TODAY.**

Bringing new life to an old favourite

Bringing new life to a home can also mean bringing an old favourite back to life. Like STRANDMON - an improved version of the classic MK armchair that IKEA released in 1951 and which sold for many years. The MK armchair on this catalogue cover is actually from the 50s, and belongs to the founder of IKEA, Ingvar Kamprad. Back then, the armchair cost 207 Swedish Kronor (with a value of 3098 SEK today) and was considered "Top of the line quality", or so it says in the first IKEA catalogue published in 1951.

Now, 61 years later, we figured that people still want a high-back wing chair that gives comfortable seating when reading, watching TV or using a tablet. And that's why we decided to give new life and a new name to MK.

A WELCOME YOU CAN FEEL

What transforms a house into a truly welcoming home?

Often, the real clincher is all the small, soft, touchy-feely stuff.

The tactile textures of curtains, bedding, linen, rugs, pillows and blankets. They're a vital part of creating a sense of everyday well-being. What's more, they're an easy, quick and affordable way to showcase your creativity, and share it with those you love.

MAKE YOURSELF COMPLETELY AT HOME

We believe in individual choice. Because the most important thing is to feel at ease in your own home, every day of the week. Somewhere you can express your style. A happy haven that puts your comfort first, and guarantees a warm welcome for friends, whenever they come to call. That's also why we design fabrics that are made for drawing on, sofa covers that won't cry over spilled milk, and mattresses that allow each person to find their individual comfort. So that everyone can feel happily at home, in their own way.

MATTRESSES

Choose a mattress that gives you the right comfort. A good night's sleep makes the best start to a great day. Try the mattresses in the IKEA stores and get advice on what mattress to choose at [IKEA.co.uk/mattresses](https://www.ikea.co.uk/mattresses)

IT'S THE THOUGHT THAT COUNTS

You don't have to buy a single thing to bring new life to a room. Start with what you have, then apply a fresh eye and a few spare minutes. Move the sofa to a new spot. Swap curtains or borrow a rug from another room. It doesn't have to cost anything. It's about ideas. There's no right or wrong. If you can imagine it, try it. And have fun.

THERE IS MORE TO IKEA THAN FURNITURE

The idea of IKEA is this: to create a better everyday life at home. It's a simple idea based on the realisation of what we think is most important in life, and why we're here. We're not going to try to explain life but we know this: there's more to life than furniture. And everyone deserves to have a beautiful home and still have money left over for other things to enjoy in life.

At IKEA, we're inspired by all the magical moments that happen every day. These moments are what keep us going, evolving and constantly thinking of how to make life at home better, more beautiful, simpler and more affordable.

A SMALL LIGHTING REVOLUTION

Who would have thought that such a little thing as the diode would create a major revolution in lighting? Well, it has. LED lighting uses up to 85% less energy than incandescent bulbs, lasts more than 20 times longer and contains no mercury. And since the diodes are so small, they can easily be integrated in lamp designs never before seen.

It may sound like it's too good to be true. But it isn't. LED gives you a completely new style of light at home, whilst saving you money on your bills, and helping nature, by using less energy. Join the revolution, with LED lighting.

"The shade, which looks a little like a ballet tutu, gives a dramatic effect when the lamp is lit, thanks to the integrated LED lighting."

ORGANISING

To us, being organised means feeling good. Knowing where you left your keys, or where to find that vital bit of paperwork, quickly. Imagine not having to stress about things like that? In a well organised home, daily life gets easier, while surroundings look lovelier. Beautiful objects can take centre stage in a glass-door cabinet, with not-so-beautiful objects stowed behind solid doors. So why not wave goodbye to chaos, and say hello to the new order of things?

SLEEPING

A good night's sleep leads to better health, because while you sleep, your body and mind recover. So what is the key to good quality sleep? For starters, it's having a really comfortable bed. We can certainly help you there.

But it's also about creating the right atmosphere for the whole mindset of going to bed, and waking up feeling refreshed. Having somewhere to keep your favourite books to read at bedtime. A lamp to create a soothing mood. The touch of soft linen against your skin.

We believe the bedroom should be the most comfortable place in your home. Whether that includes getting cosy with the one you love, or being able to fit the entire family into mum and dad's big bed for story time. To feel really good about the morning after, you need to feel good about the night before.

I love you, but... you're making me uncomfortable

They say love conquers all. We beg to differ. The way in which we sleep is a very individual thing, and not even the altar can alter that. For a real entente cordiale, choose a mattress style that suits both of you. Then add quilts and pillows to give you each the right comfort, and keep you in perfect harmony. You may not agree on the covers, but you'll agree on the joy of... getting a good night's sleep.

The Soft Toy Campaign runs at the end of every year with the IKEA Foundation donating €1 for every soft toy or kids' book that you buy.

A total of €47.5 million has been donated since the campaign first started in 2003, all

thanks to the loyalty of our customers and dedication of our co-workers.

Please join us again this year by visiting your local store between 21 October – 23 December and visit IKEAfoundation.org to see how one little toy can make a huge difference.

An extra soft towel is a small way to make a big difference to the end of a long day. Especially when it's the finale to a candlelit bubble bath.

COOKING

The kitchen is more than just a place to pickle your walnuts. It's the heart and soul of the home, the hotspot of the house, your everyday life HQ. This is where each new day begins, and every great party ends. It's where yesterday's leftovers get cleverly transformed into today's lunchtime treats. Or red velvet cupcakes are rustled up, as someone lucky gets to lick the spoon. At IKEA, we believe a happy kitchen means a happy home. So if a beautiful, practical, affordable kitchen is what you dream of, you're in the right place.

Sustainability. It's enough to make the world smile

If all of us take small steps towards being kinder to our planet, it will genuinely make a big difference. In this kitchen, the appliances are all energy efficient, the tap uses less water and, behind the doors, there are great ideas to make recycling easy and convenient. Sustainability. IKEA 365+ food container
17×17, H6cm
£2.25

Want to contribute to a better environment? Don't throw away leftovers. Store them in IKEA 365+ food storage, then use them up within a couple of days. The dishes have leak-proof lids and a vent that lets out steam when heating in the microwave.

Water-saving taps are not only good for the environment, they're also good for your water bills. You can save even more by rinsing salad or vegetables in a bowl, instead of under a running tap.

A simple sorting system in your kitchen is the trick to making recycling a normal way of life.

Save energy by using a steam insert in your pot. This means you can boil and steam different food at the same time, using one pot instead of two. Up to three inserts can be placed on top of each other.

FOLKLIG induction hob with booster
£275

An induction hob is much faster and more energy efficient than glass ceramic hobs. That's because magnetic induction only heats up the pot, not the hob.

Water boils up to 75% faster when the lid's on the pot because heat doesn't escape. When you save energy, you save money, and help the environment into the bargain.

RATIONELL worktop lighting
£40/ea

LED lights use up to 80% less energy compared to incandescent bulbs and last for 20 years. Unlike other energy saving bulbs, LED bulbs light up immediately and contain no mercury.

More than meets the eye

This kitchen has hidden depths. Like the drop-leaf table that folds out when you're not sitting down to a meal. Or the tablet storage on the wall. Or the small breakfast cart that you can just roll out, as and when. It's about things that help make the most of every inch. Because when space is small, ideas at IKEA simply keep getting bigger.

Give your tablet a home in your kitchen.

EATING

A wonderful meal isn't only about the silverware or fancy napkins. It's about the people you invite for dinner and the conversations you enjoy together. It's about creating a meal that tastes good, in a setting that makes you feel good, too. That's our thinking when we develop dining tables and chairs, or dinnerware and glasses. That the recipe for an enjoyable meal includes chairs that are so comfortable no one wants to leave the table, and covers you can easily clean if someone gets carried away with a glass of red wine in hand.

Tonight's special: A nice night in with friends

Prep time:
15 Minutes

Total time:
30 minutes

Recipe makes:
happy friends

What you need:

- a handful of friends to help you out
- every table you own
- chairs for everyone
- fabric and napkins
- textile paints and pens to make your mark
- music (optional)

01

Bring tables and desks from here and there. Line them up together to make one big table. Pull in all the chairs you can find, never mind if it gets a bit snug. All the better for great conversations.

02

Next, get crafty. Use metre fabrics and textile paint to create your own unique table cloth. Why not write a personal message for each guest on their napkins? That way they will double as place cards, too.

03

Bring food to the table and tell everyone to dig in.

RELAXING

It really is the easiest thing to do, so why do we often find it difficult?

All it really takes is making a bit of time to sit back, put your feet up, take a deep breath, and allow yourself to simply stay put for a while. With a book, with a bit of knitting, with your favourite music, or just with your eyes closed. Because when that sofa is comfy, the lighting perfect, a cosy throw to hand, and maybe a little snack or a nice drink, what's not to like? Just relax...

What if we had instant relaxation areas all around the home? Like a nice comfy sofa in the kitchen.

What tickles your fancy?

Finding exactly the right sofa for you and your home is easy with IKEA. When we design sofas, we try to make as many different kinds as we can possibly imagine. Different styles, different comforts, colours and shapes, so that you can match your sofa to your life. It should feel just the way you like it, and suit your home, in terms of style and size.

Practical enough to cope with everyday life, but beautiful enough to take centre stage in a room. And of course, affordable. For a life in constant change, we have designed SÖDERHAMN. A modular sofa that you can build together anyway you want with different sections. A single armchair or a sofa for 30 people. The possibilities are endless.

The interior design means the LED light is cleverly diffused to create a cosy overhead glow.

new

Design unlimited

The fantastic thing about LED is that the diodes are small, they don't break and need replacement, and they generate very little heat. This, together with the fact that LED is more sustainable than other kinds of lighting, has sparked yet more new creative ideas among our designers. Suddenly it's possible to create smaller lamps, spread light more evenly and integrate light into our homes in new ways. Just take a look at the lamps on this spread. One of them is inspired by a showerhead from Hong Kong, and another by a fisheye camera lens. Ideas unlimited, made possible with LED.

Its adjustable body and flat head make this lamp a space-saving miracle.

Changing shades is an easy way to bring new life to your home.

A clever way of packaging this lamp makes it possible to give it an amazingly low price tag.

"I wanted to give a classic lamp a modern twist by making it almost entirely of glass. When the glass from the lampshade and the lamp foot overlap, the light refracts for a shadowy effect."

The black and white picture

Always a good format on which to build when creating your personal style at home, black and white also combine easily with different colours and expressions. Monochrome pieces stay reliably on trend over time. So as seasons and fashions come and go, black and white will keep style firmly in focus.

On the trail of nature

As human beings, we feel calm surrounded by natural materials and the colour green. They remind us instinctively of nature. By choosing rattan, bamboo, untreated pine, organic patterns and green accent colour, we feel happier inside. Naturally.

Design courtesy of mother nature: visible growth rings create an interesting pattern in the solid pine.

In bed, most people have more than sleep in mind

It's time to look at your bed a little differently. It's where you sleep, yes. But it's also where books get read, TV gets watched, a bit of work gets done or breakfast gets eaten. That's why IKEA beds are designed for multi-tasking. Take our friend DUKEN, with the body of a bed but the mind of a sofa. The plastic mesh in the headboard makes it

perfect for you to sit up and rest against it. You can also choose between different changeable and washable headboard covers. Also, have a look at the beds with built-in drawers for bedlinen, clothes and more. Want to try them out? Just head to the IKEA store.

A good day always starts with a good night

We all sleep in an individual way. That’s why the right choice of mattress comfort varies from one person to the next.
Latex, pocket springs, foam or horsehair – they all have different comfort qualities. And there’s only one comfort that is the right one. The one that you choose.
You are the only one who can determine what comfort will help you to sleep well. We can provide you with as many

options as possible. Try out the different mattress combinations in our stores. Lie on your front, your back, or your side. And fine-tune the comfort with mattress pads, protectors, quilts and pillows. If you want some guidance and advice, you’ll find help at [IKEA.co.uk/mattresses](https://www.ikea.co.uk/mattresses).

Playing is a serious matter

All children play. Mostly because it's fun, but also because they need to. Play is the way children learn about life. Copying their parents in role-play, being creative with paint and paper, and firing their imagination with pictures and toys.

At Children's IKEA we take playing seriously, and not only for safety reasons. We believe children are the most important people in the world. And that they need stimulating, imaginative things to play with. Like the TORVA collection, for example. A collection with soft toys that look like fruit and vegetables, or a story told on a quilt cover, ready for bedtime. So that children can explore the outside world in a place where they feel safe and happy. Home.

General conditions for all guarantees

What is Guaranteed?

The extent of the guarantee given for each product is described alongside each product below. For each guarantee, the exceptions are specified under the heading: “Not covered under this guarantee”.

Duration of Guarantee

Each guarantee lasts for the number of years stated against each product below, starting from the date of purchase (or date of delivery by IKEA if later).

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it’s covered under the guarantee. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the cost of repairs, spare parts, labour and travel for IKEA repair staff or service engineers, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorised by IKEA. Any defective parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide, at its discretion, what will constitute an appropriate replacement.

Conditions for the guarantees

The guarantees are valid from the date of purchase at IKEA (or delivery by IKEA if later). The original purchase receipt (or email confirmation if ordered online) is required as proof of purchase.

Exclusions

The guarantees do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned using incorrect cleaning methods or cleaning products, (see “Care instructions”). The guarantees do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The guarantees do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The guarantees do not cover consequential or incidental damage suffered by any person. The guarantees are for the benefit of the original purchaser of the product. For details, see the guarantee conditions and description for every product.

Care instructions

To be able to benefit from these guarantees, you must follow the specific care instructions for every product. You will find all care instructions in the IKEA stores and on the IKEA web site: IKEA.co.uk

General legal rights:

Each guarantee gives you specific legal rights. The guarantee is provided to you free of charge and in addition to the rights given to you by law. It does not, in any way, affect the rights given to you by law. Items excluded from the IKEA free extended guarantees will still be covered by the rights given to you by law.

How to reach us if you need service:

Contact your local IKEA store. You will find the address and phone number on page 317 in the IKEA catalogue or at IKEA.co.uk Save your sales receipt or email confirmation as proof of purchase. Proof of purchase is required for the guarantees to be valid.
